SUMMARY

Computer Science student with a strong interest in Web Development and structured programming. Possesses foundational skills in HTML, CSS, JavaScript, Node.js, React, as well as various frameworks and libraries for web development. Demonstrates a basic understanding of both Frontend and Backend systems, along with familiarity in working with databases and essential development tools. Seeking an internship opportunity to gain real-world experience, enhance technical and teamwork skills, and deepen understanding of professional workflows within an organizational environment.

PROJECT

BCMM DEV Website Project – HTML, CSS, JavaScript, Node.js, Express, MySQL

- Developed a web application with both Client and Admin Dashboard.
- Client side: Users can read blogs, search content, comment, post in the community, and contact via forms.
- Admin side: Manage blogs (CRUD), analyze data, manage admin accounts, and respond to messages.
- Implemented JWT Authentication, REST API, and designed a scalable database structure.
- Application runs with npm run dev and supports responsive design.

CCW RESTAURANT Website Project – HTML, CSS, JavaScript

- Developed a 16-page restaurant website including Home, Menu, Booking, Cart, Checkout, Login/Signup, etc.
- Menu features: Search, filter by category, view food details in pop-up, add items to Cart or Wishlist.
- Booking features: Users can reserve tables by filling in information.
- Account/Checkout features: Manage user information and place orders.
- Used localStorage to store user data and tokens for transaction authentication.
- Designed Navigation Bar to display Cart/Wishlist items and total amount.

Thapprathan Scrap Shop Website Project – React, Node.js, MySQL

- Developed a fully functional website for a small business to manage internal operations.
- Collaborated in a team to collect real business data, analyze problems, and propose solutions.
- Designed database structure and user-friendly UX/UI.
- Built the website using React, Node.js, and MySQL to implement a real working system.
- Participated in system planning and software architecture design.

EDUCATION

Tipangkorn Wittayapat School (Wat Hutsasan Kaset) Under Royal Patronage (2016 - 2022)

- Program: Modern Business Management Arts
- GPA : 3.87

Bangkok University (2022 - Present)

- Faculty of Information Technology and Innovation
- Major: Computer Science, GPA 3.81

ADDITIONAL INFORMATION

Skills

- HTML, CSS, JavaScript, React, Node.js
- MySQL , MongoDB
- Git / GitHub Version Control
- Basic Testing (Manual / Unit Testing)

Languages

- Thai (Very Good)
- English (Basic)
