SUMMARY

computer science student with a strong interest in Software Testing and Quality Assurance (QA). Possesses a foundational understanding of Frontend and Backend systems, with experience working with databases and web development tools. Able to apply this knowledge to analyze and design test cases, as well as perform both Manual Testing and basic Automated Testing. Eager to further develop skills in automation testing tools such as Selenium and Postman. Seeking an internship opportunity as a Tester to gain real-world work experience, enhance teamwork abilities, and learn the workflow within a professional environment.

PROJECT

BCMM DEV – Web Application
- Developed using HTML, CSS, JavaScript, Node.js, Express, MySQL
- Designed and implemented REST API and CRUD features for blog and community system
- Built Client & Admin Dashboard
  - Client: Users can read blogs, search, comment, post in community, and contact via form
  - Admin: Manage blogs (CRUD), analyze data, manage administrators, and respond to user messages
- Implemented JWT Authentication, responsive design, and scalable database structure

Scrap Management System – Web Application for Local Business
- Developed using React, Node.js, MySQL
- Designed database schema and UX/UI for ease of use
- Collaborated in a team to gather real business requirements, analyze problems, and propose solutions
- Built a functional system for a small business to manage operations effectively
- Contributed to system planning and architecture design

Training & Certification

- Completed Software Tester Course (FutureSkill): Covered Manual Testing, Test Case Design, Bug Reporting, and fundamentals of Automated Testing Tools

EDUCATION

Tipangkorn Wittayapat School (Wat Hutsasan Kaset) Under Royal Patronage   (2016 - 2022)
- Program: Modern Business Management Arts
- GPA : 3.87

Bangkok University   (2022 - Present)
- Faculty of Information Technology and Innovation
- Major: Computer Science, GPA 3.81

ADDITIONAL INFORMATION

Skills
- Basic Testing (Manual / Unit Testing)
- python , robot framework , selenium
- HTML, CSS, JavaScript, React, Node.js
- MySQL , MongoDB
- Git / GitHub Version Control , postman

Languages
- Thai   (Very Good)
- English   (Basic)
